About the department

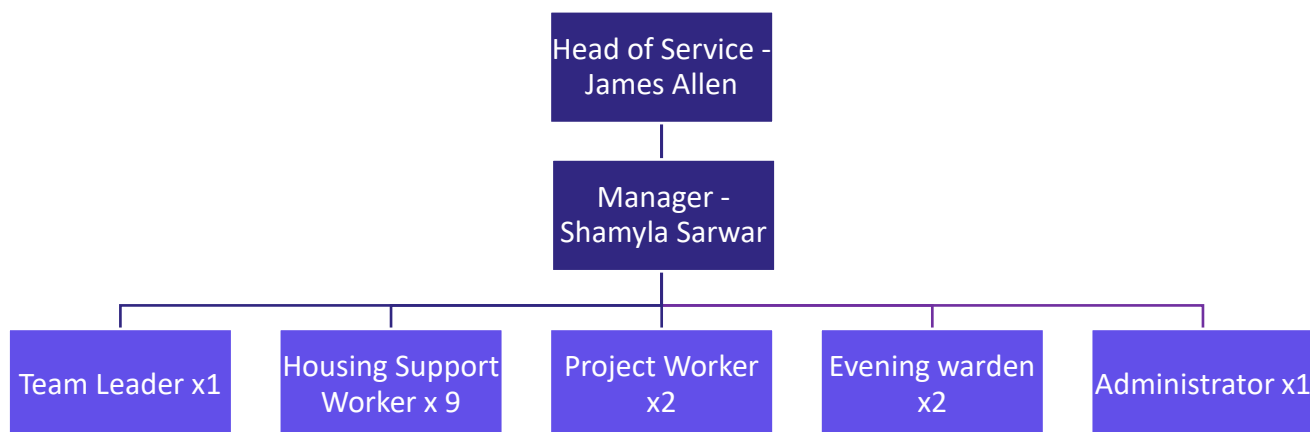

HACS (Housing, Accommodation, Community, and Support) provides housing-related support for people in the community who have experience periods of homelessness, are at risk of becoming homeless, or have an unsettled lifestyle.

The HACS team visit individuals at a place that is convenient for them, often in their own home, temporary accommodation or a family member's house, public place or at our office.

The team supports individuals who may have high levels of support needs, people who may be experiencing or have experienced problems with drugs or alcohol use and poor mental health. The team provides individuals with floating support to enable them to manage their own personal development and support plans to help them transition out of difficult circumstances and take control of their lives.

We provide a service to people who may be socially excluded and have difficulty in accessing services. We enable people to become 'Tenancy Ready', to maintain their tenancies and to move-on into homes of their own. We encourage and support people to develop new and existing skills and gain confidence in their ability to manage their own homes independently.

We tailor support in consultation with the individuals taking into account their needs to achieve the best outcome for them. We provide opportunities for people to explore and realise their own potential and build resilience through innovative activities, informal learning and volunteering.
